

DSC will sponsor seminar, conduct interagency meeting

The Delta Stewardship Council (DSC) will sponsor a seminar April 4 in Sacramento titled, "Opportunities for Applying New Science to Restoring Wetlands and Storing Carbon in the San Francisco Estuary." Judith Drexler, an ecologist with the U.S. Geological Survey, will present results of wetland research on remnant and constructed marshes in the Delta and provide lessons learned to inform anticipated wetland restoration efforts in the Delta and Suisun Marsh. More information is [here](#).

The Delta Plan Interagency Implementation Committee will conduct its inaugural meeting April 9 in Sacramento. The meeting will focus on the complementary aspects of the federal investments for the Bay Delta Region, the *California Water Action Plan*, and the Delta Stewardship Council's *Delta Plan*. Agenda items are [here](#).

SFCWA is soliciting research proposals on fish prey and losses

The State and Federal Contractors Water Agency (SFCWA) is [soliciting research proposals](#) specifically on 1) factors affecting the distribution and abundance of fish prey within the Cache Slough complex, and 2) quantification of entrainment losses. Proposals are due April 11.

Reminder - Creek Week features Delta cleanup sites

Creek Week cleanup is April 12. There are three Delta cleanup sites: two sites at Lower Morrison Creek near Freeport/South Sacramento and another at Sherman Island. Registration and more information is [here](#). There is also a tire recycling point for Delta landowners to recycle tires illegally dumped on their property between 9-12 p.m. The site is on West Sherman Island Road, on Sherman Island, just past the Rio Viento RV Park (4460 W. Sherman Island Rd., Rio Vista). This is not an amnesty program; only illegally dumped tires qualify. For more information, email Susan Roberts at the Delta Conservancy: susan.roberts@deltaconservancy.ca.gov or call 916-375-2088.

DFW releases Chinook salmon drought strategies

The Department of Fish and Wildlife (DFW) will implement [contingency release strategies](#) for juvenile, Feather River Hatchery, spring-run Chinook salmon in response to the 2014 severe drought.

Save the date - WEF Bay Delta tour is June 18-20

The Water Education Foundation (WEF) will conduct a [3-day, 2-night tour of the Sacramento-San Joaquin Delta and San Francisco Bay June 18-20](#). Tour stops include the Delta Cross Channel, the city of Stockton, Bay Delta model in Sausalito, Los Vaqueros Reservoir, and Suisun Marsh. The tour begins and ends at Sacramento International Airport and includes a ferry ride across San Francisco Bay.
