

Lake County Land Trust Property

Figure 2.5
Aerial Photograph of Study Area
View is to northwest from over Clear Lake

Photograph 12. Aerial view of Hammond Slough and agricultural fields in the foreground and Rodman Slough and Clear Lake in the background.

View is to south-southwest towards Lakeport

Bridge over Rodman Slough, circa 1914. Near site of current Nice-Lucerne Cutoff. Proposed new bridge is in far end of second open-water section.

Boating in 1915. Area is near the current location of the Nice-Lucerne Cutoff

View of watershed looking north from the Lake County Land Trust Property. Note diversity of existing habitat on west side of Rodman Slough.

Example of target habitat for Middle Creek Flood Damage Reduction and Ecosystem Restoration Project. Existing Rodman Slough habitat from Lake County Land Trust Property.

Example of target habitat for Middle Creek Flood Damage Reduction and Ecosystem Restoration Project. View to east-southeast from Lake County Land Trust Property. Department of Fish and Game property and existing Rodman Slough habitat in foreground. Levee and wild rice fields in background.
